

**A UNIQUE BRIDGE
TO ENHANCE THE VALUE OF YOUR BIOMASS
AND ACCELERATE INDUSTRIALIZATION**

 **For a healthier and more eco-responsible world** 
For more competitive sectors from upstream to downstream
We are making Bioeconomy an industrial reality

What's the Alliance ?

The union between 3 organisations with common objectives:

ITERG

Industrial Technical Center of the industries producing vegetable oils and proteins.

IMPROVE

Research & Development Platform expert in plant-based protein valorization.

PIVERT

Plant chemistry, biotechnologies and bio-refineries of all types of biomass.

To optimize biomass through sustainable processes.

To Produce natural and healthy ingredients.

To Reduce time to market.

with an international reputation

An international impact

We serve customers around the world.

More than 170 people in France

A vast team of experts with multidisciplinary skills.

In line with societal issues

Energy, environmental and nutritional transitions.

A rich intellectual property

More than 20 proprietary breakthrough technologies.

To bring out the best in your biomass

From idea to market

Oilseeds

Protein
crops

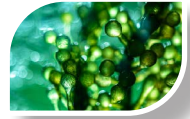

Cereals

Microorganisms

Worms,
insects

Algae,
microalgae

A diverse range of skills

Process development, Pilot scale & Industrialization

Laboratory & Analytical development

Nutrition, Life sciences

Application & Formulation

Consultancy & Technological watch

Environnemental studies

ON DIVERSIFIED MARKETS:

Food & Probiotics

Feed

Cosmetics

Fine Chemicals

Construction

Detergents

Paints

Polymers
